

REMARKS

Claims 31-60 are pending in the present application. In the above preliminary amendments, claims 1-30 have been canceled without prejudice, and new claims 31-60 have been added.

Drawings

The above amendments to the drawings correct errors and conform the drawings to the specification as originally submitted. The amendments do not make any substantive changes or introduce any new matter. For example, the processors 150, 152 and 154 added to Fig. 1 are supported by page 21, paragraph 58 of the original specification. The transceiver 160 added to Fig. 1 is supported by page 9, paragraph 0023. The shifted numbers and lines in Fig. 2 are supported by page 12-18. Approval and entry of the above amendments are respectfully requested.

Applicants have concurrently filed herewith a Letter to the Official Draftsperson submitting formal drawings to replace the originally filed informal drawings.

Specification

The amendments to the specification are made by presenting marked up replacement paragraphs which identify changes made relative to the immediate prior version. The changes made are primarily typographical or grammatical in nature, or involve minor clarifications of awkward wordings. These changes are fully supported by the original disclosure and do not add new matter.

REQUEST FOR ALLOWANCE

In view of the foregoing, Applicants submit that all pending claims in the application are patentable. Accordingly, consideration and allowance of this application are earnestly solicited. Should any issues remain unresolved, the Examiner is encouraged to telephone the undersigned at the number provided below.

Respectfully submitted,

Dated: 8/12/2004
